

# Mîskopiciқан...switch places if...

1. Students are seated on chairs in a circle formation. One student is without a chair, which leaves them standing in the middle of the circle.
2. The student standing in the middle of the circle says, 'mîskopiciқî kîspin...switch/change places if...(you are 10 years old), (if you walked to school) etc...
3. Then, all the students who "did" must get up and change chairs. Whoever is left without a chair provides the next instruction.
4. This game can be implemented to practice describing people, giving commands, and talking about present and past tenses.
